

## Liz Haywood-Sullivan Workshop Information Painting Brilliant Skies and Water

### Workshop Details

In this workshop, we will explore sky and water's individual characteristics and how they interact with each other. There will be a daily demonstration and group critiques, along with plenty of one-on-one instruction at your easel. We will work from photographs, so please bring some photos that include sky and some that include water.

Day 1: we will work on techniques for creating believable clouds

Day 2: we will use underpainting to create moving water

Day 3: we will work on reflections of the sky on water
